

LNG CANADA STEM SCHOLARSHIPS - CRITERIA

PURPOSE:

LNG Canada wishes to promote and encourage Grade 12 students to pursue their post-secondary education in the Science, Technology, Engineering or Math (STEM) fields. The objective of the scholarship is that by providing eight scholarships of twenty-five hundred dollars (\$2,500.00) students will be encouraged to undertake and successfully complete their academic STEM courses or trades training. LNG Canada will advertise and promote the LNG Canada STEM scholarships via Social Media and print.

FUNDING:

The annual amount given by LNG Canada is twenty thousand dollars (\$20,000.00) for eight (8) scholarships of two thousand five hundred dollars (\$2,500.00) each. These funds are to be distributed to four (4) students in Kitimat and four (4) students in Terrace.

SELECTION:

Students in Kitimat will apply to their school Awards Committee through the school's process as per all local scholarships. Students in Terrace will apply to the N.W. Education '88' Foundation and a committee of the Foundation shall select the recipients.

CRITERIA:

To be considered the student must be enrolled in Grade 12 in Kitimat or Terrace and must be planning to attend a post secondary full time academic STEM program or a post-secondary Trades Training Program. The award recipient must be agreeable to being profiled, which includes a personal picture being published in LNG Canada communications material.

REDEMPTION:

To claim the scholarship, the recipient must prove, within thirty-four (34) months of the award being received, proof of registration in an educational program at a recognized post-secondary institution.

The scholarship will be paid in one installment of two thousand five hundred dollars (\$2,500.00). The payment will be paid upon proof of registration in an academic STEM program or enrolment in a trades training program or a subsequent period of their trades training or apprenticeship training.
